

*Knowing God In the Word*, the radio program of Word of Truth Ministry, is now available for listening on both Apple and Spotify Podcast platforms. This means you can listen anytime on your cellphone or tablet to all of Nathan Johnson's teachings from the past 10 years of radio programming.

Just download the app for Spotify and/or Apple Podcasts. In the app search feature, type in *Knowing God in the Word* and you will see our podcast come up. Then hit "follow" so you don't have to search for us again. (Note, all Apple devices and computers already come with the Apple Podcast app.) You can also listen to our podcasts right on our website.

We are loading programs starting at the beginning when Nathan taught verse by verse out of the Gospel of John. It will take several months to get all past programs up on our podcast, and once we are caught up, you will see the current programs show up each week.

We are excited to add this easy-access medium to our library of Word of Truth Ministry teachings. We encourage you to give our podcast a try!
